THIS IS UNEVALUATED INFORMATION FOR THE RESEARCH
USE OF TRAINED INTELLIGENCE ANALYSTS

1. The Naval Design Office at Blankenburg is concerned with the construction of submarines to serve as guided missile firing platforms. This construction is based on the research of the German submarine project, which near the end of the war had solved the technical aspects of the problem. The cover name for this research is "Glückauf". However, work at Blankenburg is not progressing, and the Soviet head, Dipl. Eng. Dr. Antipin, has several times expressed his suspicions of sabotage. One of the leading brains in the Blankenburg Bureau, Engineer Kniebel, is thought to be doing his best to sabotage the construction.
2. Head Engineer Clausen, who was recently granted fourteen days' leave to visit his parents, did not report back for duty in Blankenburg on 21 January 1948, as had been ordered.
3. The Naval Design Office is due to be transferred to the USSR early in March 1948. The new location is to be on the Black Sea Coast. One of the German draughtswomen has been offered a special contract in Belgrade upon the termination of the work at Blankenburg.
